UHP 3x

5 GAL.

Ultra Concentrate

UHP 3X is a fast acting concentrated alkaline presoak formulated self-serve, pressure spray, or brush washing facilities. UHP 3X penetrates road film, dirt, and bug residues quickly with excellent rinsing, leaving a film free, shining surface. Formulated with biodegradable wetting agents and safe for all reclaim systems.

High pH Presoak

Wheel Brite

5 GAL.

Ultra Concentrate

Wheel Brite is a specialized low pH wheel cleaner designed to tackle the toughest grime in automatic car washes. Formulated to dissolve brake dust, road debris, and tough mineral stains, Wheel Brite effortlessly restores wheels to a pristine shine. Paired with our High pH wheel cleaner Amplify, Wheel Brite creates a balanced approach that ensures a thorough, streak-free finish every time.

Wheel Cleaner

Amplify

5 GAL.

Ultra Concentrate

AMPLIFY 2X is an ultra concentrated, high foaming wheel cleaner designed for automatic and self serve car washes. Engineered to deliver double the cleaning power, Amplify 2x effortlessly cuts through tough brake dust, grime and road contaminants. Its advanced formula is safe for all wheel finishes, ensuring a spotless, streak-free shine without the risk of damage. Unlike other wheel cleaners, Amplify 2x is a great solution for avoiding caustic soda buildup in CTA applicators.

Wheel Cleaner

ATLAS CHEMISTRY

Ultra Glide

5 GAL.

Ultra Concentrate

ULTRA GLIDE 2X is a double concentrated neutral foaming detergent formulated to enhance vehicle cleaning while providing needed lubricity to mitters and wraps to resist dragging, squeaking, and grabbing. ULTRA GLIDE 2X generates mounds of foam but is designed to break down fast in the rinse area of the wash. ULTRA GLIDE 2X is biodegradable and safe for reclaim systems.

Wrap Foam

Turbo Low

5 GAL.

Ultra Concentrate

TURBO LOW is a powerful concentrated low pH booster designed to enhance cleaning in low pH presoaks and wheel cleaners. Engineered to effectively reduce surface alkalinity, Turbo Low accelerates the drying process, ensuring a spotless, streak-free finish. This advanced formula works by neutralizing residual alkaline substances on vehicle's surface, allowing a quicker water evaporation rate.

Low pH Booster

DX90

5 GAL.

Ultra Concentrate

DX90 is an ultra-concentrated, high solids drying agent engineered to deliver exceptional drying performance in car wash applications. Formulated for fast beading and rapid water breaking, DX90 ensures that water quickly sheets off the vehicle's surface, reducing drying time and leaving a spotless streak-free finish. This ultra-concentrated formula, allows your car wash to achieve superior results with minimal product usage, maximizing both performance and cost-efficiency.

Drying Agent

Atomic Polish 2x

5 GAL.

Ultra Concentrate

Atomic Polish 2x is a double concentrated low pH detergent designed for automatic carwashes. Atomic Polish 2X will deliver high foam with vibrant colors and scent while providing outstanding appeal and fast water breaking for your customers..

Available Colors:

RED-Blue-Yellow

Tri Foam Polish

Atomic Red

5 GAL.

Ultra Concentrate

Atomic Red 2X is a double concentrated low pH conditioner designed for automatic car washes. With its vibrant red color and rich, high-foaming action, Atomic Red not only cleans but captivates. This conditioner produces thick, luxurious foam that clings to the vehicle's surface, lifting dirt and grime effortlessly. The pleasant scent adds an extra touch of appeal, enhancing the overall car wash experience.

Conditioner
